That makes much more sense; I thought 10:30 pm sounded a bit late. I should be able to make 10:30 am.

Pat,

Yes, I can make a 10:30pm call. But, just wanted to confirm it's 10:30 at night - not 10:30 in the morning?? I can make either time.

Also, please use my Gmail account - bnemser@[REDACTED] - if you don't mind.

Regards,

Ben

Hi, Pat.

I have a meeting to attend on Wednesday night but will do my best to make the 10:30 pm call. If you are scheduling an alternate time that ends up being another day and a bit earlier in the evening, I will probably join that instead.

Thanks.

Lisa

Hi All,

I will set up a first call this Wed. at 10:30 pm with TASC to discuss moving forward with the technical advisor. I'm working to get a toll free call-in number now and will send it once I know for sure. In the meantime, please set this time aside if you are able to talk to the TASC folks. I'll schedule another call for the folks who can't make this one

thanks

Pat

Subject: Call to discuss TASC program and community request for technical advisor

Hi Everyone,

I had a call this morning with Kirby Webster from the TASC program. She would like to set up a call with as many people as possible so she can explain a little more about how TASC works but more importantly, to hear from you your major concerns about what type of technical assistance you are looking for. TASC is prepared to provide a technical advisor (or more than one if needed) to read, summarize and comment on the EPA documents related to OU3 – Groundwater. Under the Technical Directive issued by the national EPA contract, TASC can also provide other assistance such as preparing fact sheets, meeting summaries, attending a certain number of meetings, etc.

We can try and schedule a time when everyone who is interested can call in (which might be difficult with everyone's schedules) or we could set up a couple different calls that are convenient for all. Kirby's schedule is open next week so if you could get back to me with some options, I'd appreciate it. I believe Kirby has an advisor in mind, but she would prefer to hear your concerns about expertise, qualifications, etc. before contacting that person.

I look forward to hearing from you.

Thanks,

Pat

PS – I haven't forgotten about helping you reorganize the CAG. You'll hear from me tomorrow about that.
